Also, Microsoft release day today Updates with bug fixes, Security improvements, and New features.. Here you will see Jan 11, 2018 - I did a windows 10 update now it is stuck at personalised settings not responding.

HI I have 2 Server 2012r2, after it install windows Update, I can log on The setting up personalized it is frozen.. But some of the users Report After installing or Upgrade windows 10 October 2018 Update Version 1809 Windows 10 Freezes Applications Not Responding for a long.. Any ideal how to fix it Windows 10 October 2018 Update comes with lots of New Features security improvements And much faster compared to previous OS versions.. Go to Task Manager and Restart Windows Explorer Not fix 'personalized settings not responding' this is registry problem after the update.

Isn't that Personalized Settings dialog ActiveSetup? To chime in after experiencing this issue after a recent Windows 10 insider update.. Personalization settings in Windows 10 To open the Windows 10 Settings app, in the taskbar search bar type Settings and click on the top result which appears at the Start.. The attachment have a photo of all the update it was install last night My remote connection on of the first server it frozen, but a second work good. [Hp Deskjet 3070a Driver Windows 7]
