If you find this driver to work with a (USB) connected 3600n on Windows 10, please leave a comment below so it can help others in that situation.. However, some drivers do not support this verification by Microsoft Windows driver signature enforcement, which leads to problems installing hardware drivers and ultimately rendering the hardware useless.. A few are floating on the web, but only the 3600n driver package seems to work for me on Windows 10.
